#### **EXECUTIVE SUMMARY**

**Peezy** (\$PEEZY) is a meme-based cryptocurrency project launched on the Ethereum blockchain in October 2024. The project positions itself as the "cool alter ego" of Pepe the Frog character, aiming to carve out a unique identity within the meme coin landscape.

The **team's anonymity** raised concerns, as no members could be identified and **no corporate structure** affiliated with Peezy was identified.

The project's reputation is primarily shaped by its presence on X and has very few user engagements.

According to our review, Peezy has not been involved in civil or criminal litigation. We can also confirm that the project has not been featured on anti-money laundering, debarment, prohibitive, or international sanctions lists.
